

Credence Artwork Alignment Fixtures

Credence Artwork Alignment Fixture

Credence Engineering is now offering state-of-the-art artwork alignment fixtures to perfectly locate your registered artwork to the screen prior to the exposure process. This provides almost perfect print screen alignment prior to the first print. This reduces printer setup time and allows the use of high end measurement systems that upload XY θ adjustments from the very first print. Setups can be as short as 5 minutes and whenever variables can be eliminated, yields go up as well as throughput. Contact Credence Engineering Inc. for all of your printer needs.
